VINALHAVEN SCHOOL

The past weeks at school have been full of action!

And there's so much more ahead...

Hundreds of students, parents, and community members arrived for an amazing evening at the **Spring Concert & Art Show**. Thanks to everyone for supporting the artistic endeavors of K-12 students. The middle school students (above) walking into the trees were actually taking part in their **community service day**. From updating gardens to cleaning up trash, students were helping do their part for Vinalhaven. **Leaps of Imagination** (top right) engaged elementary students with nature, art, and personal expression over a two-week period. Finally, for those who came by the school and stopped to observe (bottom right), it was the annual **Parking Lot Poetry Day**, featuring the creative writing of elementary students.

This week, June 6 – 10, some students will be out discovering the island with hiking trips, while others venture to Hurricane Island for science explorations. Seniors will be busy rehearsing their steps and speeches, sneaking in late for “senior prank”, having a few laughs at the senior farewell assembly, and then making us all proud at graduation. Details?

Graduation occurs on Saturday, June 11, at 11:00 a.m. in the Smith Hokanson Memorial Hall. We plan to live-stream the event, so watch for a link on the school Facebook page.

As always, thanks to the community for supporting the adventures and successes of Vinalhaven School students. All the best,

Dr. Monte Selby, Principal

Sustainable Maine Fishing Foundation
 Maine Lobstering Union-Local 207
For Lobstermen, By Lobstermen

The Maine Lobstering Industry is in a very precarious position these days. We are being inundated with regulation changes faster than we can keep up.

The Maine Lobstering Union recently created a non-profit organization, the Sustainable Maine Fishing Foundation, to fund the legal challenges that threaten our industry each day, helping us preserve our legacy fishery.

We are currently in three federal lawsuits regarding North Atlantic Right Whales, one as the lead plaintiff and two as interveners defending Maine's lobstermen. We are also deeply involved with moving Maine's renewable energy needs forward, responsibly.

Sustainable Maine FF is working to protect the Maine Fishermen, and the Gulf of Maine, the "Gold Standard" for the largest producer of sustainable lobster in the world. The lobstermen of Maine have an unmatched dedication to their industry. An industry in constant jeopardy as new regulations threaten their way of life, their livelihoods, their future. An industry rich in heritage that spans over hundreds of years, with a legacy that is passed on through generations.

We greatly appreciate the past, present, and future financial assistance our donors continue to provide. We exist solely on donations and fundraising. Please become a donor today! If you have specific funding guidelines we can work within those parameters. We are also open to fundraising suggestions!

May none of us ever know a time when Maine lobster is not on a menu.

Thank you for your kind attention to the above matter. Please contact us with any questions.

Respectfully,

Sustainable Maine Fishing Foundation

The Observer

There's a lot going on that will ultimately affect Maine State Ferry Service operations, fares, convenience, and dependability.

The State's *Maine Won't Wait* initiative asks that emissions be meaningfully reduced in operations across the state so alternatives to diesel propulsion (realities in other parts of the world) are being considered.

And alternatives to costly rusting steel hulls—composite, fiberglass, plastic—a reality in Scandinavia, are being thought about seriously.

Meanwhile, while new steel, diesel driven ferries continue to roll off the production line, having been put together with inadequate specifications or supervision resulting in our taking delivery of inoperable or deficient vessels, thoughtful consideration is being given to precisely the oversight that's been missing.

Half the cost of running the ferry service is paid through fares. The other half comes from the state highway fund. Some in the Maine legislature and the D.O.T have made it known that they are unhappy with that arrangement, some are unhappy with having to fund it at all.

Last year Maine's legislative Joint Standing Committee on Transportation, concerned with costs across the broad spectrum of public transportation, asked the state D.O.T. to review Maine State Ferry Service operating costs. The D.O.T., in turn, asked the Island Institute to help. The result is a survey, now on-line and available to us all, which will be active and inviting input for the next month or so.

In recent years, we've all been asked to complete way too many surveys, surveys that were clearly gratuitous responses to one mandate or another. And they've often been clearly pointless because the outcome that was professed to hinge on survey results had already been determined. Surveys have often left us asking, "Why bother?"

Each of the six islands were represented in compiling this survey and while it didn't meet with unanimous approval, it is the result of consensus. I am confident and will work to see that the results are carefully considered, analyzed and result in a comprehensive report to the Transportation Committee that will, in turn, result in improvements across the board.

June 13 is Random Acts of Light Day ~ this day encourages us to do random acts of kindness to bring light into the life of someone suffering from cancer and to make the world a better place for cancer patients and their families.

Vinal Energy is thinking spring! As summer approaches and seasonal homes begin to open, we want to give a friendly reminder to our propane customers to please call us to check and replace propane tanks in advance of your arrival. This allows a smooth transition for all and decreases the chance you'll arrive on the island and find you are out of propane. We look forward to hearing from you, happy spring!

ICMS is currently conducting a community health needs assessment. This is to help ICMS better understand the health needs of the community and how to improve services to the island.

What is a needs assessment?
 It is a method of identifying unmet health and healthcare needs in the community and making changes to meet those unmet needs. This process is required by the federal government every 3 years.

WE WANT TO HEAR FROM YOU

A great way to figure out what needs are unmet is to talk with the community. The medical center would love to have 1-on-1 interviews with community members! If you would like to schedule an interview on how to improve health services on Vinalhaven please contact Janica, Annie, or Rebecca in the Outreach Department. These interviews can be done over the phone, through zoom, or in person.

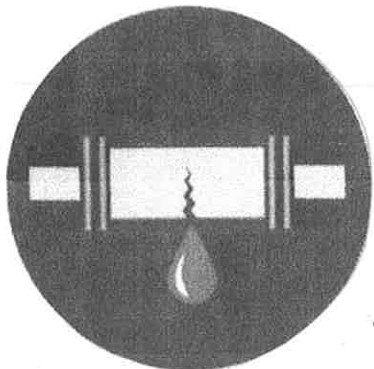

Janica Barrows—jbarrows@icmsvh.org or 863-4341

Rebecca Gaillard—rgaillard@icmsvh.org or 542-7758

Do you have a leak?

- ❓ Is your yard or basement always wet even in dry weather?
- ❓ Have you noticed a sudden change in pressure or flow?
- ❓ Toilet always running?

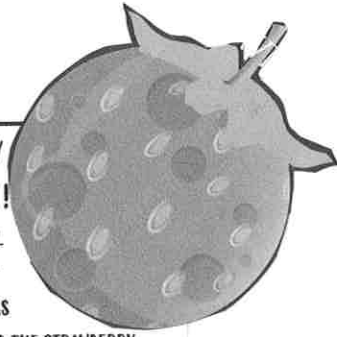

These may indicate a leak at or nearby your home.

Leaks don't sleep! Even a small leak of less than a gallon per minute can add up to 1,000 gallons per day!

Conservation and leak detection is more important than ever as we head into the summer season.

If you see any signs of a leak, please contact the **Vinalhaven Water District** at 207-975-2189.

A Poem in Honor of the
New VH Ferry

The Spear is here, shiny new,
now ready to welcome you.
But lurking inside,
a mystery for the ride.
Which door goes where
and what about stairs?
Official signs abound for sure,
yet they only confused me more.
But handmade labels,
taped-on notes are nice.
As better signage, they suffice.
Thank-you crew,
for making it clear
how to find my way
around the Spear.

Vinalhaven High School Visits Botanical Gardens

Kyr Day

Vinalhaven High School went on a trip to the Coastal Maine Botanical Gardens in Boothbay, Tuesday, May 3rd.

The high school student body, as well as the staff, were given the opportunity to go to the gardens. Students were divided into groups of 6-7 with a teacher chaperone and were allowed to explore the areas as they wanted.

The trip was organized by Science Teacher Daniel Ganoza, who had gone to the gardens in the summer of '21. He'd considered the trip after learning that most students and teachers had only visited the gardens in the winter.

There were many species of flowers, ferns, and other plants. Some examples include rhododendrons, narcissuses, and hyacinths.

For many students, this was their first time visiting the botanical gardens. However, some had gone before with their families.

"I liked seeing the gardens during the daytime," said junior Bella Tolman. "I've only ever seen them during the Gardens Aglow seasons."

A staple of the trip were the five statues of trolls made of wood, each relating to a part of a tree. Science students were tasked with taking pictures with each of the trolls.

"I like [Roskva] because she was holding a tree," said Ganoza. He

was interested in how the artist built the hand around a tree. "I also like her because she was the first troll I saw. It was a shock to me how big it was."

The gardens consisted of several areas for guests to learn from or interact with. These included an apiary, fairy house village, and the shoreland trail waterfront.

One area, students enjoyed was the Bibby and Harold Alford Children's Garden, themed after various children's books written by Maine authors. The area is divided into a series of separate spaces, each with its own identity and focus. Attractions include a treehouse, small pond, and a maze lawn.

Another favorite was the pond in the Giles Rhododendron and Perennial Garden. There students could see turtles swimming in the water and sitting on the edge.
